INDUSTRY OVERVIEW

The architectural Glass hardware industry has evolved over the years. Technology and its use have increased many folds giving precision to products with quality and sustenance. Along with the use of technology, design has also evolved over these years.

The presence of glass hardware in the Indian Design Industry was primarily felt in last 25-30 years when its usage started progressing from a mere aesthetic /decorative material to a structural material aiding in flow of spaces, establishing transparency in architecture and making nature merge naturally into designs.

Today, many people associate 'contemporary architecture' with glass. If not a necessity, it has become a vital part of the Indian Architecture which of late has been experimenting with materials. Globally, India is counted amongst one of the largest consumers of glass in construction. In modern days skyscrapers, Retail Architecture, Commercial Complexes, Airports etc, glass hardware provides a whole lot of new propositions.

BACKGROUND

The architectural Glass hardware industry has evolved over the years. The usage of glass hardware in the Indian Design Industry started progressing from a mere aesthetic /decorative material to a structural material aiding in the flow of spaces, establishing transparency in architecture and making the environment merge naturally into designs.

Years of experience in the glass industry made us acquainted with the need for masses of various ranges, quality products and efficient installation services. And that led to the establishment of Dubont in 2014.

Our initial year covered all the essential product requirements, including slidings, glass fitting, shower ranges, etc. Gradually, with people's changing needs, we added more products to our list. Our innovation made us the first manufacturer of frameless telescopic glass fighting in 2017 and propelled us in being a part of many exhibitions in Delhi, Mumbai & Ahmedabad.

ABOUT US

Established in 2007, Dubont is acclaimed as the most reliable name in India's finest Architectural Glass Hardware. Adhering to global standards, we offer a range of modern and innovative trends for doors and accessories.

Our architectural hardware range comprises Floor Springs, Patch Fittings, Shower Hinges, Glass Connectors, Sliding Handles, Glass Door Locks, Sliding Rollers, Sliding Tracks and Fittings, Glass Point Fittings & Spider Fittings. We are unmatched both in terms of price and quality. Our primary focus is the ease of fixing and functional elegance, and we strive hard to ensure maximum reliability and service life.

We succumb to stringent quality control procedures and follow international standards. We acquire in-house designers and R&D departments equipped with state-of-the-art CAD stations relentlessly exploring new means through innovation, studying global trends and optimizing cost by well-qualified engineers and professionals.
